

ART DIRECTOR

We are looking for an experienced Art Director to supervise the content production department in Beijing. Content refers to 2D/3D/Real-time content and moving image concepts for our clients based in China. The main industry sector is automotive industry for local target groups (end customer).

We offer a competitive salary, great benefits and are also considering applicants that do not possess a respective work visa. The right candidate will join a highly-motivated team in a modern working environment.

We look forward to receiving an informative application from you by E-Mail, incl. work samples, salary expectations and earliest possible start date.

YOUR TASKS

- Responsible for the content production's art direction and visual quality
- Supervising the artists in all creative matters
- Consulting the client in creative decisions
- Conducting client approval sessions

OUR EXPECTATIONS

- Several years of professional experience in art direction, ideally with clients in the automotive industry
- Hands-on experience with 3D visualization pipelines
- Automotive affinity and a photographer's eye
- Excellent presentation and strong communication skills
- Distinctive client and service orientation
- Confident and team-oriented manner
- Comfortable with large-scale projects
- Fluent in spoken and written English and Chinese
- Experienced in printing and color management

ABOUT US

Mackevision is one of the global leaders in computer generated imagery (CGI) which covers 3D visualization, animation and visual effects. The company designs and produces image and film material, as well as interactive applications in high-end quality. It develops technological solutions for generating images and looks after the entire CGI process from data preparation to creative design. The international team looks after major corporations, medium-sized companies and their agencies.
